

Memories of Stu Bailey

Hello everyone! In lieu of an in-person memorial, I am making a group video for Memories of Stu Bailey and need your help. Please add your own video memories about Stu or to Dot and family by following the QR Code (it's quick & easy) and you'll be part of a memorable tribute.

Dot's health prohibits her from making the trip up here, but there is nowhere she and Stu considered home more than here at BUCC that they loved all these years. Utilizing this QR Code, she can see and hear your thoughts, memories and wishes. It is a way to share your heart with her about Stu. She can pace herself and make calls and visit a little at a time, as her energy level allows. Thank you so much for considering this.

I will be downstairs today and available to video for anyone that is not comfortable with the technology. – Karen Hernandez
